

Send us a proposal:

- Describe your project idea.
- What is your interest in farming/food/people?
- How will your project enhance our work as farmers and benefit our farm and CSA?
- How will your project develop throughout the season?

Lori Pitcher 2017

Please provide images of your previous works, if available.

Proposals will be accepted through March 31.

Artists selected will be notified by April 6.

Proposals will be reviewed by the Rising Sand Organics Board of Directors.

Send proposals to
Polly – polly@risingsand.com.
Questions? Call 262-224-6027.

ART SHARE OPPORTUNITY

We, at Rising Sand Organics, are seeking to exchange a CSA share of produce for the creative works of local artists.

Kelly Krill 2016

About Us:

We grow over 100 varieties of vegetables, fruits, herbs, and perennials on 35 acres in Custer, Wisconsin, utilizing passive hoophouses and organic & biodynamic farming methods.

The CSA (Community Supported Agriculture):

Every week or every other week from June through November, our CSA members receive a share of vegetables. This season, we'll be growing for 90 households, along with production for local farm markets, restaurants and local retail stores. We serve the Appleton, Neenah, Stevens Point, Plover and Amherst areas.

Why an Art Share?

Art is awesome! We believe that both good food and art are pillars of a healthy, happy community. Expanding the dialogue between local makers of all kinds is what the Art Share is all about!

Figure 1 Elyse

What we can offer you:

- 35 acres of creative inspiration/unconventional space for installations and performances
- An audience of local CSA members and online followers
- Materials for distribution

The Exchange:

We are looking for an artist(s) to join us for the 2019 season, producing art that gives our members a new way to experience their farm, vegetables, and Community Supported Agriculture experience. In exchange, we will provide the artist with a CSA share full of delicious vegetables, fruits, and herbs.

- You will receive a CSA Share (valued at \$600 or \$320, depending on how much you eat!) and all other privileges associated with being a member of our CSA Program.
- Your art is promoted first and foremost to our CSA members. We also share via our social media community.
- Rising Sand Organics receives rights and originals of project artwork to use and display on our farm, website, and with our CSA.

What we want:

- To support your creative process and provide an outlet for your work
- To support your continued work as an artist in our community and beyond. (We make it a point to follow and promote your work after your season with us.)

What we don't want:

- Marketing or promotional materials for our farm
